General Questions

Practice Questions

Q1. Which of the following is NOT a type of aggregate?

A. Coarse aggregate
B. Fine aggregate
C. Recycled aggregate
D. Liquid aggregate

Solution: Liquid aggregate is not a recognized type of aggregate; aggregates are typically classified as coarse or fine.

Q2. Which test is used to assess the soundness of cement?

A. Vicat test
B. Le Chatelier test
C. Blaine test
D. Compression test

Solution: The Le Chatelier test is used to determine the soundness of cement by measuring its expansion when mixed with water.
